Mathematics.

# INTRODUCTION

**CrowdCure is an application committed to revolutionizing the way individuals and families approach healthcare financing.**

**Our platform provides a unique and accessible solution designed to empower users to proactively manage their medical expenses and achieve financial peace of mind.**

## **Key Features:**

- **Income-Based Monthly Contributions:** CrowdCure allows users to set aside a portion of their earnings each month, aligning contributions with their financial capacity.
- **Company Matching:** CrowdCure offers a 10% match on every dollar contributed by users. This company match not only encourages responsible saving but also demonstrates our commitment to your well-being.

# INTRODUCTION

**CrowdCure is an application committed to revolutionizing the way individuals and families approach healthcare financing.**

**Our platform provides a unique and accessible solution designed to empower users to proactively manage their medical expenses and achieve financial peace of mind.**

## **Key Features:**

- **Income-Based Monthly Contributions:**

Our app allows users to set aside a portion of their earnings each month, aligning contributions with their financial capacity.

- **Company Matching:** CrowdCure offers a 10% match on every dollar contributed by users. This company match not only encourages responsible saving but also demonstrates our commitment to your well-being.

# ABOUT:

- **Emergency and Procedure Funds:** CrowdCure provides a financial safety net for our users when these circumstances arise, enabling them to access their savings to cover medical costs swiftly.
- **Transparent and Flexible:** . Users have full visibility into their contributions, the company match, and the available funds at all times. Additionally, we understand that needs can change, and CrowdCure allows for flexibility in contributions to adapt to evolving circumstances.
- **Secure and Private:** CrowdCure employs robust encryption and security measures to safeguard your sensitive financial and healthcare information.

# WHO IS CROWDCURE FOR?

- According to the CDC 8.4% or 27.6 million Americans of all ages did not have health insurance
- Crowdcure aims to bridge the gap between standered health insurance and being completely uninsured.
- Opitmal for those who face high medical costs and low medical costs.
- People Wanting to Avoid Bureaucratic Hurdles: Users who prefer a streamlined process that bypasses the bureaucracy often associated with traditional healthcare funding channels.

# HOW DOES CROWDCURE MAKE MONEY?

While maintaining user privacy, selling anonymized and aggregated user data to research institutions, pharmaceutical companies, or government agencies for health research or policy development.

## Premium Subscription

Offer premium subscription tiers with additional features, such as enhanced customer support, personalized financial planning, or investment opportunities for healthcare funds.

## Data insight and analytics

## Affiliate Marketing

Promote affiliate products or services related to healthcare, insurance, or finance and earn commissions for successful referrals.

Offer opportunities for healthcare-related companies to advertise or provide sponsored content on our app. Ensure that the content is relevant and valuable to our users.

## Sponsored content & Adv

## Partnership & Referrals

Collaboration with healthcare providers, insurance companies, or financial institutions. We can earn referral fees for connecting users with these partners for services like insurance, health check-ups, or investments.
